Help and Healing through the Teachings of Bruno Groening

The news about new diseases accumulate. Therefore the possibility of healing the spiritual path receives increasing attention, even among medical experts. In this context a name appears again and again: Bruno Groening. He left the knowledge about taking in a spiritual healing force, the "healing stream" (Heilstrom). Again and again he advised: "Don't be gullible. Convince yourselves!" Numerous amounts of medically documented success reports verify the effectiveness of his teachings.

Bruno Groening

The Bruno Groening Circle of Friends

The Bruno Groening Circle of Friends is worldwide one of the largest groups for healing the spiritual way. Here those interested and those seeking help can learn to take in the healing stream free of charge. Often amazing healings occur even of long standing organic diseases.

All activities in the Bruno Groening Circle of Friends are free of charge, all expenses are met by voluntary contributions.

An essential component of the teachings of Bruno Groening is the respect of everybody's free will. Everybody can leave the circle of friends at any time; financial or legal liabilities do not exist. No medical advice, consultation, examination or treatment is given, advised against or interfered with.

The Medical Scientific Group (MWF)

The MWF (in German: Medizinisch-Wissenschaftliche Fachgruppe) is an international forum of several thousand doctors and members of different medical professions from over 60 countries. Since 1992 this group has been investigating reports of healings and help which happened through the teachings of Bruno Groening. Success reports are scientifically documented, using the findings of examinations carried out by independent doctors as far as possible.

Help also for Young People

Numerous success reports show, that in cases of alcohol and drug addiction, of anxieties, depressions, frustration etc. spiritual healing is possible. Youth communities also exist to help needy young people and drug addicts.
